-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 52 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 52 recites the limitation "anti-shivering agent" in line 2. There is insufficient antecedent basis for this limitation in the claim. Note that claim 42 recites an anti-shivering element.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 42-48 and 50 are rejected under 35 U.S.C. 102(a) as being anticipated by Keller et al. (6,264,679). Keller et al. disclose a system comprising:

a heat exchange catheter (24) insertable into a blood vessel of the patient;

a temperature controller (22) in communication with the heat exchange catheter to cause the heat exchange catheter capable of reducing the temperature of at least the a patient's kidneys to a temperature at which the substance-induced renal damage is prevented or mitigated; and

an anti-shivering element (warming blanket and col. 9, line 22-col. 10, line 42).

Note: if "an anti-shivering element" in claim 42 were changed to "an anti-shivering agent" and claim 50 canceled, then the application would be in condition for allowance, because none of the prior art of record with the priority date of the instant application discloses an anti-shivering agent in combination with a heat exchange catheter.

***Allowable Subject Matter***

Claims 53-69 are allowed.
